

GSYCO Enterprises Announced the Creation of 'The Christian Business & Services Connection'

The Christian Business & Services Connection® (TCBSC), is a Internet-based consumer and business services network offering Internet Business Card advertising on an exclusive Internet-based Christian Business Directory for Christian Small Business owners.

February 3, 2010 (FPRC) -- (TCBSC) -GSYCO Enterprises announced the creation of 'The Christian Business & Services Connection® (TCBSC), an Internet-based consumer and business services network offering Internet Business Card advertising on an exclusive Internet-based Christian Business Directory for Christian Small Business owners.

Operated by Christians, TCBSC is focused on offering consumers and businesses alike, the unique opportunity of locating and obtaining services with people of like morals, character and Christian ethics.

Guy Yancey, President and owner of GSYCO Enterprises, the parent company of The Christian Business & Services Connection®, boils the concept down to one simple statement: 'Think of us as your Christian 'business directory' on the Web!

Yancey states that the core basis for The Christian Business & Services Connection's existence is to provide advertising venues via 'Internet Business Cards' a network of Christian businesses and businesspersons for the consumer to access via the Internet.

If you need a plumber, you can go to this site to locate one in your town, knowing that you are more likely to be dealing with someone of like morals, character and ethics.

'The idea came into vision when I was looking for an Optometrist at the church I attend. With the church membership numbering close to 2000, I could not find one. After the fact, I found out there were several. I surmised that if I had this problem, there must be thousands of people across the United States facing the same problem. I then woke up one night and God provided me with the vision for this site! Thus, the birth of the concept!' states Yancey.

His internet site is fast loading with over 800 business categories to choose from. The internet site opened in August 2009 with site promotion currently in the infant stages.

The site also offers a ministry of FREE Christian Church & Organization Fundraisers.

Yancey indicates, 'If we continue at this pace, 2010 will be a very good year for our new business.'

You can check it out online (www.tcbs.com).
