

Stephen Modica of Your Net Biz Announces, He has Joined the Turnkey Marketing Group

Stephen Modica of Your Net Biz, has announced that he is now a member of Turnkey Marketing Group. He feels this group in one of the best groups to be involved with if one wants to really learn how to create an online presence and market effectively. The 4-step marketing system is a methodical effective way to achieve your marketing goals.

February 8, 2010 (FPRC) -- Stephen Modica of Your Net Biz, has announced that he is now a member of Turnkey Marketing Group. Modica says, "having been in business as an online marketer for well over a year and associated with two prior marketing groups, the Turnkey Marketing Group stands head and shoulders above the other marketing groups now on the Net. The marketing group uses a 4-step marketing system, which according to Modica is the way to go if you do not want to become a slave to your computer and phone.

Briefly, the first step is, "Mindset". Stephen Modica says, "mindset is the most important aspect in business or anything in life for that matter. In short, one must plant seeds of success in their mind in order to produce positive successful results". Modica maintains a, positive mindset by reading and applying positive material derived from books such as, "As a Man Thicket", "Think and Grow Rich" and the like. Mr. Modica first read "Think and Grow Rich" in 1975 and new at that point, he was on to something big.

The second step is, as a business owner, you need to realize, people buy from those they "Like and Trust". The The Turnkey Marketing System teaches how to get people to like and trust you which is imperative to success. Stephen Modica says, "study and implement this step in earnest, and your sales and freedom advance rapidly and you will wonder why it took so long to attain success".

In the third step, you will be shown the many ways to drive traffic along with the best and most profitable ways, and the ways to stay away from. Strangely, many people do not realize the best traffic is free. "Master traffic techniques and you're well on your way to large income", as Modica plainly states. Mr. Modica, did warn, "The traffic generating method takes time to implement but the rewards for the early effort will pay off very great returns".

Lastly, in step 4, List Building is taught. Modica states, "In order to truly be successful a large, highly responsive list is vital. This is what the best Internet marketers do best". When you begin to master the art of list building, you will be able to receive income on automatic pilot.
