November 15, 2007 (FPRC) -- Hookers N Slicers, LLC. has announced the launch of their new web site built exclusively for Myrtle Beach golf travelers. The self proclaimed "Specialists in golf travel" have designed a web site for the Myrtle Beach Golf traveler that promotes the best of what Myrtle Beach has to offer from superb accommodations, golf course offerings, and many extras that are not offered by other golf travel sites. Their new site, Myrtle Beach Golf By HnS, can be seen at www.myrtlebeachgolfbyhns.com.

In an effort to better serve their customers, Hookers N Slicers is committed to creating individual web sites that will provide clear and focused information that will only pertain to individual golf destinations. Their first "destination" web site, www.myrtlebeachgolfbyhns.com, is focused on Myrtle Beach Golf and offers reviews and course information specific to that area, like Barefoot Golf & Resort. Other destination web sites will soon be made available through www.hookersnslicers.com.

Golf destination specific web sites will also allow Hookers N Slicers to identify specific services that only they can offer at each golf destination, in the case of Myrtle Beach, Hookers N Slicers, has partnered with the Myrtle Beach Caddy Girls and is providing caddy services. Now, when a golf group books travel with Hookers N Slicers, they can include the caddy service as part of their package, Hookers N Slicers is the only golf travel company offering such a service.

"We are very excited about the launch of www.MyrtleBeachGolfbyhns.com, this is the first of many web sites that will be tailored to specific golf destinations that Hookers N Slicers cater to." states Stephen M. Hollingsworth, Managing Partner, Hookers N Slicers, llc.
