August 3, 2010 (FPRC) -- Dr. Ali Jahangiri, an EC-Council Instructor Circle of Excellence Award winner and world respected security expert, is pleased to announce the launch of his new book 'CEH Exam Self Assessment: Sample Questions & Answers for Certified Ethical Hacker (CEH) Exam '. With over 250 example questions it is a great resource for those IT professionals who are taking the EC-Council's Certified Ethical Hacker course.

The Certified Ethical Hacker (312-50) course from the International Council of E-Commerce Consultants (EC-Council) is a professional certification program to train IT professionals to use the same tools and techniques used by hackers and so learn how to find weaknesses in IT systems and then how to make those systems more secure.

For those candidates who have attended the Certified Ethical Hacker course the CEH Exam Self Assessment Book is the perfect companion. Inside there are hundreds of example questions, similar to those that are in the actual Certified Ethical Hacker exam.

"The idea for this book kept coming back to me every-so-often" said Dr. Jahangiri. "Especially after one of my CEH workshops where the students frequently asked me for sample questions so they could prepare for the exam."

Dr. Jahangiri is one of the EC- Council's top trainers who has taught the Certified Ethical Hacker course many times. Using his years of experience and his knowledge of the subject, Dr Jahangiri has put together an essential set of example questions which will help any course attendee to pass the final exam.

The CEH Exam Self Assessment: Sample Questions & Answers for Certified Ethical Hacker (CEH) Exam isn't Dr. Jahangiri's first book. He is also the author of Live Hacking: The Ultimate Guide to Hacking Techniques & Countermeasures for Ethical Hackers & IT Security Experts which is also a valuable resource for those attending the Certified Ethical Hacker course.
