

Demon's Cycle, Inc. Moves Its Entire Operations to Bigger Premises

Custom motorcycle manufacturer moves its warehouse and corporate offices to larger space in Pompano Beach, Florida.

December 2, 2010 (FPRC) -- Demon's Cycle Inc., a custom motorcycle builder and custom motorcycle parts supplier, is pleased to announce that it has relocated to larger premises. Bucking the trend of economic downturn the new premises will allow Demon's Cycle to increase its manufacturing capacity, hold more stock and improve its customer services.

At 17000 square feet, the new building is about twice the size as Demon's Cycle's old premises and is located just 1.5 miles away, down SW 12th Avenue/N Andrews Avenue, from their old address. All existing customers and trade visitors should be able to locate the new building without any problems. The new headquarters also has excellent access from Interstate 95.

"It is very exciting for us to have the opportunity to double our space, expand our product line and better service our customers" said Tom Steinbacher, the founder of Demon's Cycle. "We have built our business on quality parts at exceptional prices and have been rewarded with this growth spurt."

The new Demon's Cycle building has enough space for offices, a huge warehouse and a high quality showroom to exhibit Demon's Cycle's offerings and masterpieces. With plenty of customer parking and a better communication infrastructure (more phone lines and better Internet) the new building will also better service Demon's Cycle's customers.

About Demon's Cycle

Using new headquarters in Pompano Beach, South Florida, Demon's Cycle was started more than seventeen years ago by Tom Steinbacher and has a reputation as a pioneer of radical motorcycle designs, euro style bikes and custom chopper concepts. Demon's Cycle is an international custom motorcycle wholesale company. As well as building custom motorcycles and selling rolling chassis, Demon's Cycle specializes in the sale of custom parts for Harley-Davidson motorcycles. They offer a wide range of parts including frames and motors.
