*Dr. Kenneth Love (aka Kenny Love) metamorphoses from Jazz to Dance with his new high energy single titled "Chance."*

February 24, 2012 (FPRC) -- Detouring slightly from his normal Jazz element, groove, and on the musical heels of his recent "cAsE sEnSiTiVe" CD release, Dr. Kenneth Love (aka Kenny Love) slams the 2012 dance floor with his new high energy dance single titled "Chance." The ever pulsating single can be experienced firsthand on Dr. Love's YouTube channel at <http://www.youtube.com/jazzman795>

The aforementioned "cAsE sEnSiTiVe" compilation release that featured ten modern Jazz selections garnered a number of respectable compliments from the music industry, deejays, and fans alike, of which can be viewed at <http://www.kennylovejazz.com/Comments.html>

Likewise, the compilation spawned an ongoing dance floor hit appropriately titled "Let's Dance!" which is available for review at <http://www.youtube.com/watch?v=VTuaVvzE9M0>

"Producing original music for a musician and recording artist is an unimaginable experience," says Dr. Love. "And, it creates an epiphany when it is derived from the spirit," he adds.

Airplay Direct member radio station personnel, disc jockeys, and deejays may also download both a radio edit version and a longer dance floor version of "Chance," as well as download both versions of the "Let's Dance!" single at <http://www.airplaydirect.com/music/KennyLove>
