

Demon's Cycle Extends its Line of Custom Forward Controls for Harley-Davidson Motorcycles

Demon's Cycle has added to its already extensive line of forward controls for Harley-Davidson motorcycles.

November 2, 2012 (FPRC) -- Demon's Cycle Inc., a custom Harley motorcycle builder and custom motorcycle parts supplier, is pleased to announce that it has added to its already extensive line of custom forward controls for Harley-Davidson motorcycles. The complete range now includes a variety of different types and styles, in the standard size or 2 and 3 inch extended sizes. Many of the controls come in two types of finish, black or chrome.

With forward controls the foot pegs, brake pedal and shift peg are placed towards the front of the frame meaning that the riders legs are extended forward. Changing these controls is a good way to customize the look and feel of a Harley-Davidson.

Demon's new extended range includes many types of forward controls offering a diverse range of different style pegs and floor boards. There are skull, flame, tribal and Swiss cheese themes. The forward controls come with either a chrome or black finish and many of the chrome parts have brass variations.

“Changing the forward controls allows owners to quickly alter the appearance and riding position of a motorcycle,” said Tom Steinbacher, owner of Demon’s Cycle. “With our extended range of forward controls we have parts for almost every imaginable design and style.”

For those wishing to have a corresponding style on the handlebars, Demon's Cycle also sell matching hand grips and hand controls.

Demon's Cycle prides itself in its ability to offer affordable custom parts without sacrificing quality. The new, extended range of forward controls is no exception.

About Demon's Cycle

Based in Pompano Beach, South Florida, Demon's Cycle is an multi-million dollar international custom motorcycle wholesale parts company. It was started more than nineteen years ago by Tom Steinbacher and has developed a reputation as a pioneer of radical motorcycle designs, euro style bikes and custom Harley chopper concepts. As well as building custom motorcycles and selling rolling chassis, Demon's Cycle specialize in the sale of custom parts for Harley-Davidson motorcycles. They offer a wide range of parts including handlebars, hand controls, tires, gas tanks and turn signals.
