

## **Spiritcures.com Reveals the Extraordinary Benefits of Natural Medicine**

*A new website, Spiritcures.com, is helping people to realize that not all medicine is created equal.*

November 6, 2012 (FPRC) -- Home remedies have enjoyed a renewed interest in recent years, with more and more people turning to natural healing methods rather than the synthetic drugs supplied by pharmaceutical companies. Spiritcures.com is a new website designed to accelerate this much-needed transition.

Created and maintained by the British writer and natural health researcher Michael Ravensthorpe, Spiritcures provides in-depth and comprehensive articles on home remedies for common illnesses and diseases.

'Of course, there are already a large number of websites about home remedies online', began Ravensthorpe. 'However, very few sites attempt to isolate the absolute best remedies for each condition based on the author's first-hand experience'.

'With Spiritcures, I avoided the trap of listing the same, tried-and-tested remedies for each condition, and favored lesser-known – but nonetheless potent – natural cures that almost anyone can utilize without side effects.'

Spiritcures is a long-term project, and unique, research-based articles are added to its archive on a weekly basis. Each article focuses on a particular medical condition or disease, and lists the best home remedies with which to treat it. The conditions it addresses vary from common, benign medical problems such as sore throats and yeast infections, to less conventional issues such as poison ivy rashes, head lice, and pink eye.

'One little-known remedy that can cure numerous ailments is blackstrap molasses', continued Ravensthorpe. 'It is a dense, syrup-like concentration of minerals sourced from the sugar cane plant that can cure constipation, improve skin and eye health, stimulate hair growth, and much more. But how many people know about it?' he asks.

'This is the aim of Spiritcures: To propel these magnificent yet criminally-unknown remedies into the spotlight, so people can begin to reclaim their health through natural and inexpensive means.'

From athlete's foot to urinary tract infections, there isn't a single medical condition that Ravensthorpe either doesn't address or intend to address on his site. Indeed, he aims to reveal the best home remedies for every major condition in existence.

The website is user-friendly and easy to navigate, with its most popular articles listed on a side panel. All visitors are invited to subscribe to its RSS feed so that they can be kept abreast of the latest posts. For more information, please visit <http://spiritcures.com/>.

About Spiritcures.com:

Spiritcures is an article-based website created by United Kingdom-based natural health researcher Michael Ravensthorpe. Regularly-updated and maintained, it provides comprehensive articles about innovative and high-quality home remedies for common illnesses and diseases.
