

New Shelving System Launched

idh direct have launched the CLICKA shelving system which offers good value for money and is quickly and simple to assemble.

January 14, 2013 (FPRC) -- idh direct have launched the CLICKA shelving system which offers good value for money and is quickly and simple to assemble.

The shelving system is a strong and flexible low cost solution for businesses and industrial and commercial organisations that require high quality shelving systems which are easy and quick to put together, thus saving installation costs.

The system is also a unique and strong two part upright structure and has a solid steel joining plate that secures it. Because the CLICKA shelving system comes in the two part upright structure, it can be shipped and delivered in smaller boxes which save on carriage charges. idh direct pass these savings onto their customers. The units are also provided with self-support straps which strengthens the shelves.

The industrial shelving units come in a choice of two width and three depths and measures 1770mm in height. It has five tough, durable MDF levels and in a high quality, hardwearing finish and the shelves are adjustable to 3.5cm. A number of CLICKA shelving units can be assembled and used to create a large amount of storage space and idh direct also provide a range of storage bins for small parts storage. The other advantage of using this shelving system is that it is a boltless design and therefore no tools are required to assemble the units.

The units are delivered free within 48 hours. Orders can be ordered online using their 24 hour online ordering service or ordered over the phone by contacting 01793 722079.
