February 27, 2013 (FPRC) -- San Francisco, CA - The release of *Murder of Sex* by Geoffrey M. Gluckman (www.geoffgluckman.com), author of the award-winning thriller *Deadly Exchange*, brings an incendiary tale of lust, passion, love, betrayal, and loss into easy reach of anyone. *Murder of Sex* (www.facebook.com/murderofsex) may not only change how you view the world of sex, dating, and intimate relationships, but how you view the origins of mankind.

When Dr. Josh Flagon, a professor of literature at a moderate sized liberal arts Nevada university, is drawn to an irresistible co-ed, Rebecca Reaper, little does he know it will take him on a lustful, passionate, life-changing ride. It will also jeopardize all that he values, his career, and all that he seeks freedom.

While teaching classes and writing, Flagon uncovers a secret that boils beneath his cool, scholarly veneer. Rebecca, a brilliant student and sensual siren, reveals that mystery and much more to the professor through their passionate tryst. But at what price? Is it worth killing for?

In a haunting tale that weaves the literary with street smarts, passion with desolation, imprisonment with emancipation, and the desires of mankind with its origins, there thrives something to savor for every adult who has entered the intimate relationship arena and sought deeper answers to life's questions.
