

World Renowned Coach Creates New-Age Training for Aspiring Professionals

Renowned trainer of the World's top gamers has created the first ever NEW AGE Home Study Training for the serious, but NOT necessarily wealthy aspiring professional.

Miami, USA (FPRC) May 22, 2013 -- Renowned trainer of the World's top gamers has created the first ever NEW AGE Home Study Training for the serious, but NOT necessarily wealthy aspiring professional.

Ben Yarbrough has long been regarded as the top person in his field providing comprehensive gaming training to 'world class' players--particularly in the austere game of Baccarat. These players are always seeking to sharpen their skills and increase their bottom line, and that is exactly what Yarbrough has helped them accomplish in dazzling fashion.

Now, he has developed a unique training program to assist a different group. Namely, the equally serious but less wealthy players who often have never learned the 'critical basics' so fundamental to successful gaming engagements.

This trusted Coach Yarbrough, a member of both Mensa and Intertel, has authored a number of books over the years regarding his exploits with the World's wealthiest players. One of these books 'Modern Day Pirates' has been translated into both Traditional and Simplified Chinese-- and for those preferring to read in Chinese, is available on Amazon.com. Additionally, a YouTube video showing Yarbrough involved in a strategy session with one of his students at their Bellagio Hotel Penthouse apartment in Las Vegas is viewable here- <http://youtu.be/fjA7Ve2YjNA>

For many, securing this most interesting sort of training and benefiting from the Yarbrough shared wisdoms, has proven crucial to avoiding the 'Titanic Iceberg' that ill-prepared gaming usually creates and fosters, but it has been financially out of the reach of most gamers. To see more about enrolling for this New Generation training program, go to BaccaratTraining.com. --or call Sunshine Publishing at (706) 505-2901
