

Demon's Cycle Receives New 48 Fat Spoked Custom Wheels for Harley-Davidsons

To meet the growing demand, custom motorcycle parts supplier Demon's Cycle has received new stock of its range of 48 fat spoke wheels.

November 4, 2013 (FPRC) -- Demon's Cycle Inc., a custom Harley motorcycle builder and custom motorcycle parts supplier, is pleased to announce that it has increased its stockpile of 48 fat spoke custom wheels for Harley-Davidson motorcycles. Since fat spoke wheels are the most popular custom wheel on the market, Demon's Cycle has acquired a greater number of units to ensure that it can supply its customers quickly and without delay, while keeping prices at the lowest possible.

Demon's current stock includes high quality chrome and black wheels to fit Harley-Davidson motorcycles, including Softail, Fatboy, Delux, Dresser and custom designs, with 160 to 300 wide rear spoked wheels and 18 inch to 23 inch front wheels with fat spokes.

The wheels, which are available as complete sets and as individual rims, feature fat spokes of high-polished stainless steel, which have a triple plated chrome or powder coated black finish. All the wheels have rims which are sealed for use with tubeless tires and they all come with billet hubs and sealed bearings.

"When I look at a motorcycle it is the wheels that often catch my attention first," said Tom Steinbacher, owner of Demon's Cycle. "The wheels on a bike can define the machine, they speak volumes about the style and design. Anyone wanting to customize their Harley-Davidson can start by changing the wheels."

Demon's Cycle only offers the best in terms of craftsmanship and pricing, yet without cutting corners and reducing quality. For example, every fat spoke wheel from Demon's includes a second set of bearings and a spacer. There are no hidden charges, nothing left to chance.

About Demon's Cycle

Based in Pompano Beach, South Florida, Demon's Cycle is a multi-million dollar international custom motorcycle wholesale parts company. It was started more than nineteen years ago by Tom Steinbacher and has developed a reputation as a pioneer of radical motorcycle designs, euro style bikes and custom Harley chopper concepts. As well as building custom motorcycles and selling rolling chassis, Demon's Cycle specialize in the sale of custom parts for Harley-Davidson motorcycles. They offer a wide range of parts including handlebars, hand controls, tires, gas tanks and turn signals.
