

Elmi's Essentials Announces New Product Grand Opening Special

Kitchen and household product distributor Elmi's Essentials releases special grand opening coupon code for new product, Simply Magic Garlic Peeler

April 9, 2014 (FPRC) -- Ever wish you could save time on those mundane, must-do tasks? Many people do - especially those of us who work long hours or have families to provide for with little time to spend on the little tasks of life.

Responding to the increased desire to free up precious time, kitchen and household product distributor company Elmi's Essentials decided to provide new, innovative products that, simply, make life easier. The Simply Magic Garlic Peeler, just recently launched, is the first product in the Simply Magic line that will feature many different kitchen and household items.

"Who doesn't wish they could save more time?" says Operations Manager Briana Galinger. "Time is precious and our company ambition is to make life easier for you and save you time on life's little tasks." The silicone garlic peeler works "simply" - pop in some garlic cloves, roll the tube on a hard surface, and the peels pop right off.

Elmi's Essentials has utilized online retail giant Amazon as a platform for promoting their new product. Mrs. Galinger says, "We are so certain customers will enjoy our garlic peeler tube that we are offering 30% off the sale price from April 11 through April 30." The coupon code is RSWWH7X2 and can be entered upon checkout.

The Simply Magic Garlic Peeler is currently being offered along with the next product in the line, the Simply Magic Garlic Mincer. Both products are backed by a no questions asked lifetime replacement guarantee and ship free with Amazon Prime or \$35 or more purchase.
