

Nuvagenic Reviews Announces Availability Update for Nuvagenic & Solpria Weight Loss Supplements in 2014

The popular weight loss combo will be available in 37 countries as of May 2014. NuvaGenic could help burn fat, while Probiotics are a key ingredient of Solpria.

May 16, 2014 (FPRC) -- Nuvagenic is now one of the top selling diet supplements around the world, thanks to the African Mango extract, its primary ingredient. It boosts Leptin - the substance that is responsible for regulating metabolism and appetite. The other ingredients that make up NuvaGenic are also known for their health, fat burning and anti-oxidative properties.

Nuva Genic is available in 37 countries around the world: Argentina, Australia & New Zealand, Austria, Belgium, Bolivia, Chile, Columbia, Croatia, Czech Republic, Denmark, Finland, Germany, Spain, France, Greece, Hong Kong, India, Ireland, Korea, Luxembourg, Malaysia, Mexico, Holland, Hungary, Norway, Peru, Portugal, Russia, Singapore, South Africa, Sweden, Switzerland, Turkey, Ukraine, United Kingdom and Venezuela.

Solpria is also a top diet supplement, with a focus on detoxifying the digestive system. Solpria uses Probiotics - live organisms such as bacteria - to improve intestinal and overall health. These friendly organisms, combined with other key ingredients in Solpria could help maximize weight loss achievements. Solpria speeds up the slimming process ignited by NuvaGenic.

Solpria is also available worldwide : Argentina, Australia & New Zealand, Austria, Belgium, Bolivia, Chile, Columbia, Croatia, Czech Republic, Denmark, Finland, Germany, Spain, France, Greece, Hong Kong, India, Ireland, Korea, Luxembourg, Malaysia, Mexico, Holland, Hungary, Norway, Peru, Portugal, Russia, Singapore, South Africa, Sweden, Switzerland, Turkey, Ukraine, United Kingdom and Venezuela

NuvagenicReviews.com and SolpriaReviews.com are independent websites designed to help people discover the benefits of the African Mango Extract in general and Nuvagenic's and Solpria's in particular.
