

Just Orbit Collaborates with Tour Operators & Guides World Wide to launch Tour Packages

Just Orbit, the one stop travel information platform for all those who are planning for a trip anywhere in the world has introduced a new service of late. It has in fact launched tour packages in collaboration with local travel agencies and tour operators.

May 22, 2014 (FPRC) -- Just Orbit, the one stop travel information platform for all those who are planning for a trip anywhere in the world has introduced a new service of late. It has in fact launched tour packages in collaboration with local travel agencies and tour operators. The travel and tourism industry has been growing at an incredible rate for the last few years and this is why www.justorbit.com has introduced the new service. Since its inception Just Orbit has worked as a reliable source of information for travelers and now the new service is going to take the tourism industry to a new level.

In collaboration with local tour operators, guides and travel agencies Just Orbit publishes the different tour packages available in the market. This helps people choose the best package according to their requirement. The worldwide tour packages include long tour, short tour, excursions, sightseeing tours and special activity tours. All these tours are planned carefully keeping in mind the requirement of the tourists and so clients can easily enjoy their vacation once they decide to go according to the information provided by Just Orbit.

One of the most important aspects of Just Orbit is that it works with authorized travel agencies and tour operators. Hence clients can be rest assured that they are going to get the best and the most authentic service. It bridges the gap between the tour operators and the holiday planners by bringing them together on a single platform from which both can benefit. The clients can get the most authentic travel information about sites and packages and the tour operators can take their services directly to the clients.

When asked about the thought behind this new initiative Mr. Raj Narang, the visionary whose brain child is Just Orbit says, "With all the unique travel planning and information facilities that Just Orbit has, planning a trip has already become a very enjoyable experience for our clients and with this global tie up with the world's most renowned travel agencies and tour operators we have taken our services one step ahead to ensure that we cover the client's travelling needs from end to end. When people go for a tour they often find it difficult to choose the right tour operator from a number of choices. We have made it easier by bringing almost all the local tour operators of a place on a single platform."

When it comes to booking a tour package the thing that bothers the clients most is the authenticity of the company. This is why Just Orbit only works with those who are recognized in the field. When gaining information about a tour package through Just Orbit, clients can be rest assured that it is the most authentic as the tour operators are selected through a strong verification process. While other sites feature tours that depart on a specific day of a week, www.justorbit.com mostly features tours that have daily departures. The various interesting package deals offered by JustOrbit.com are featured at <http://www.justorbit.com/deals/>. Moreover, in most of the tour packages the price is inversely proportional to the number of tourists. Hence, Just Orbit and 'Best Deals' have now become synonymous.

About Just Orbit: Just Orbit is a well known self travel planning website based in New Delhi, India. Through its unique travel planning features people can plan their next vacation on their own. All the information that a person needs while going on a vacation is provided in detail at www.justorbit.com and one can easily make use of these information right from choosing the destination to planning the return journey.
