

New Friendly and Secure Online UK Hosting Provider Launched; ukhostingprovider.com Ready For Business

UK Hosting Provider is a UK based website hosting company retailing value hosting packages to the public.

July 2, 2014 (FPRC) -- Uk Hosting Provider is a new, secure online Uk Hosting Provider website providing affordable website hosting packages. With just a few clicks you can setup your own hosting account accompanied by the purchase of your desired domain name and start your campaigns straight away.

Anthony McCarthy, an internet entrepreneur, is pleased to announce the launch of UK Hosting Provider a new secure UK Hosting Provider website for affordable website hosting packages.

UK Hosting Provider allows you to setup an website hosting account in a matter of minutes. As well as being fun and easy to use, UK Hosting Provider is 100% safe and uses industry standard encryption and security to ensure that all transactions are trouble free and secure.

Designed for webmasters of all sizes, UK Hosting Provider can be used by the very low user as well as those who are determined to create a viable online presence.

'I am very excited about the launch of UK Hosting Provider said Anthony McCarthy founder of UK Hosting Provider 'Our aim is to help our customers value for money products and to establish a good community spirit.'

Setting up an uk hosting provider account is very easy.

After registering for an account, there is the opportunity to set up your desired package and a domain name if you require one. UK Hosting Provider deals with servers such as the popular centOS, debian, ubuntu, redhat, and the ever popular Cpanel, and accepts paypal and most credit and debit cards.

All packages come with the most popular control panel called cpanel and a wide range of instantly available apps. We have a very superior support ticket system in place should members require assistance.

The UK Hosting Provider is a friendly and enjoyable UK Hosting company which is secured with an industrial strength SSL certificate. Although UK Hosting Provider is based in the U.K, it trades worldwide.
