

Green Stream Chemicals and Soaps New Web-site Opening

Green Stream Chemicals and Soaps company is happy to announce new web-site opening. Here you will find environmentally friendly products for your facilities.

July 23, 2014 (FPRC) -- Green Stream Chemicals and Soaps company is a provider of environmental sound products. Offering wide range of oil absorbents, such as: absorbent mats, absorbent socks, quilted mats and others. Heavy duty work gloves you can purchase in separate category of the store. Different kinds of industrial heavy duty/hand cleaners are good quality with low cost.

Green Stream strongly believes in reusing and recycling. Our sister company, Closed Loop Recycling, launders used T-rags and oil absorbents, which ensures a reduction in company costs, paperwork, labor. Green Stream takes pride in helping to create reusable waste streams- water, oil and absorbents.

Green Stream is a brand which provides the highest quality of industrial products and services with a matched sense of professionalism and care for our customers.

Positioning our customers as partners within the Green Stream family, it is our highest priority that our clients find the most suitable products for their individual needs. Our expert managers are happy to guide you to GREENER pastures! Sizing questions? Got it! What's best for your facility? Right there with you! Trying to reduce costs? Bingo! The Green Stream family is here to help!

The Green Stream difference lies in a strong commitment to providing businesses with environmentally friendly options for industrial cleaning that save your company money. The staff has dedicated their careers to ensure that we're doing the best for both Mother Nature and for businesses.
