

Vikoz Enterprises and Plastic Manufacturer Close Major Deal for Plastic Powder, Pellets and Scrap

Vikoz Enterprises and a major U.S./Canadian plastic products manufacturer announced today that a deal has been reached between the two companies to supply Vikoz with plastic powder, pellets and plant scrap.

August 28, 2014 (FPRC) -- Sandy, Utah - Vikoz Enterprises, industry leader in the plastic recycling business, announced today that the Sandy, Utah company has agreed to terms with a major U.S. and Canadian manufacturer of plastic powder, pellets and plastic scrap.

Vikoz was not able to disclose the complete details of the agreement due to contract stipulations, however a spokesperson for Vikoz noted that the contracts run for one year starting July 1, 2014 and are subject to a 2 year renewal if all goes as expected. He went on to say, "This agreement fits perfectly into our long term goal to provide feedstock to our customer base."

Vikoz's partner in this deal maintains plants in both the U.S. and Western Canada and the agreement between them is said to involve approximately 3 - 4 million pounds of mostly LLDPE and HDPE resin, for which Vikoz has deals pending with long time buyers. Vikoz expects to start receiving loads of plastic feedstock under the terms of the agreement starting in the next couple of weeks from plants in Canada and Houston, Texas.

Vikoz Enterprises has been in the plastics recycling business for 18 years. The company recycles all grades of plastic and they purchase raw plastic scrap in any form, regrind or resin. Vikoz specializes in post-commercial and post-industrial accounts and offer grinding services, used plastic pallets, bins, totes, and boxes.

About Vikoz Enterprises and Vikoz.com: Vikoz Enterprises is a full-service plastics recycling company. Located in Sandy, Utah, the company has been operating for more than 18 years and has now become one of the largest plastic recycling companies in North America. Vikoz offers a variety of services that make it convenient and beneficial for their clients to incorporate plastic recycling into their daily operations. Vikoz also provides boxes and collapsible bins for collecting plastic scrap.
