

ExamGuides.com Website Updated For Better User Interface.

ExamGuides.com, the premier exam cram website has been updated thoroughly to provide better user experience and search engine friendly. The new site features horizontal CSS menu with breadcrumbs for easy navigation.

November 28, 2014 (FPRC) -- The website ExamGuides.com has been updated thoroughly. The new layout is very user friendly and provides a horizontal menu with drop-down links. The cram notes has been revised for various certification exams. Several certification paths, including CompTIA A+ and Network+ Certification notes are being updated. The website provides exam cram in Cisco, CompTIA, Oracle OCP, Microsoft MCSE/MCSA, ITIL, PMI, EC-Council, Sun Java, Check Point, and others.

The exam cram notes is being updated to align with the changes in the certification exams. The new exam notes will be updated over the next couple of weeks, and the links to the old notes will still be available..

The new exam cram notes to be made available include the following:

- a. A+ Essential 220-801 Exam Cram <http://www.examguides.com/aplus-essentials1.htm>
- b. A+ Practical Application 220-802 Exam Cram
- c. CCNA 200-120 Exam Cram
- d. CCENT Exam Cram 100-101
- e. ICND2 200-101 Exam Cram

New exam cram notes will be added from time to time, and the existing cram notes will be updated based on the most recent certification objectives. Other cram notes available include Checkpoint CCSA, CIWA, and others. Exam cram notes is useful for candidates preparing for the cert exams as last minute preparation too. Practice tests may be downloaded from CertExams.com, a leading prep exams provider. Practice tests available for a+ network+, security+, server+, ccna, ccent, icnd2, mcse, juniper simulator, netsim, switch simulator, and others.
