

## **Have no Fear! London Drainage Facilities Will Still be Working over the Xmas and New Year Period 24/7**

*The city-based drainage contractor has announced that it will be on hand to deal with any unexpected blockages throughout the festive period.*

December 10, 2014 (FPRC) -- London Drainage Facilities (LDF) will continue to run its fast-response drainage services around the clock in late December and early January to ensure its team of emergency engineers are on hand to resolve drainage problems while the rest of the nation is enjoying the holiday season.

Whether they need help unblocking a drainage network, or simply want to discuss an upcoming drainage project, customers will be able to call upon LDF 24 hours a day, 7 days a week. The company will even be operating on Christmas Day and Boxing Day.

Fraser Ruthven, Growth and Strategy Manager at LDF, believes it's "just not possible to close the company at such a crucial time of year".

"It's particularly important that we continue to respond to emergency reactive callouts over the Christmas period," he says. "Problems can occur at any time, even in drainage systems that are regularly maintained and typically perform very well, so we need to ensure that LDF is on hand to deal with the problem quickly and efficiently to prevent further damage from occurring.

LDF operates an average emergency call-out response time of just 2 hours. Ideally situated close to the M25, LDF's technicians are able to service the whole of London and its surrounding Home Counties.
