

SimulationExams.com Releases Juniper JNCIA Practice Tests

SimulationExams.com released Juniper JNCIA practice tests with 300+ most relevant questions with flash card explanation.

April 2, 2015 (FPRC) -- SimulationExams.com released Juniper Networks Certified Associate – JNCIA tests with 300+ questions, complying to the latest exam topics. The question types offered by the simulator include Multiple Choice Single Answer (MCSA), Multiple Choice Multi Answer (MCMA), and testlets.

The Juniper JNCIA Cert simulator mimics the actual exam with similar difficulty level, and exam environment. The test engine offers two modes: Learn mode, and Exam mode. Learn mode is useful for candidates to step through the questions and learn the concepts behind each question. Exam mode is useful for candidates preparing for final cert exam preparation.

The Juniper JNCIA practice exam objectives include the following:

1. Networking Fundamentals
2. Junos OS Fundamentals
3. User Interfaces
4. Junos Configuration Basics
5. Operational Monitoring and Maintenance
6. Routing Fundamentals
7. Routing Policy and Firewall Filters

Category wise scoring is available, and candidates will be able to repeat the exam with bookmarked questions.

Free Juniper JNCIA Questions are available.

About Juniper JNCIA : The Juniper Networks Certified Associate – Junos (JNCIA-Junos) is the entry-level credential required to continue to the advanced certifications in our Junos certification tracks. Successful candidates demonstrate knowledge of the Juniper Networks Junos OS, networking fundamentals, and basic routing and switching. No pre-requisite is there for appearing for the written exam. The exam code is JN0-102
