

The Seo Essex Co Launches New Responsive Website Design in 2015

The Essex based online marketing agency has announced the launch of their brand new, mobile-friendly website design to coincide with Google's latest algorithm update.

April 27, 2015 (FPRC) --

The team at The SEO Essex Co, who have been hard at work developing their new website design over the past few weeks, had Google's latest mobile-friendly update firmly in mind during the first stages of production.

"We are delighted to say that we have received a great deal of positive feedback since our new site launched," says Danny Hall, Co-Director at The Essex SEO Co.

"With Google's recent updates now in place, we recognised that it was vital that we had a mobile responsive site that looks great in all browsers across all major devices."

The team at the Essex-based agency are confident that their easy to navigate site will help to meet the needs of businesses across the UK, as well as offering their users a creative design and informative, engaging content.

For more information on the wide range of online marketing services offered by The SEO Essex Co, please [click here](#) to visit the company's new website. If you are concerned that your site is not mobile friendly, their consultants will be happy to talk you through your options.
