

HomeUnion To Offer Single Family Rental Investment Opportunities In North Carolina, Raleigh-Durham Area

HomeUnion has expanded both their service areas and investment opportunities, with SFR investments now available in Raleigh-Dunham and throughout North Carolina.

San Francisco, CA -- October 20, 2015 (FPRC) -- Anyone who has ever accrued wealth knows that one never earns a fortune, one accumulates it. Investment is the only way for people to make their money work harder, and real estate investing is still one of the safest and certain ways of making a return, developing a portfolio and achieving goals for wealth creation. HomeUnion is an investment service that helps individuals invest in property to maximize returns while keeping assets protected, and has expanded to include new services and new service areas.

The company is now offering investment properties in the Raleigh-Dunham area, which offers investors favorable cap rates and a positive economic outlook thanks to research findings confirmed by HomeUnion's proprietary modeling system. Based on home prices, vacancies, historical income trends, employment, local economy and population growth amongst other criteria, single family rental properties are on track to boom.

The offering of single family rentals was identified by HomeUnion as a massive growth potential, and the company has hired real estate veteran David Guy, who brings more than 20 years of real estate investment experience in the Raleigh-Durham area, to oversee the new project. This enables the company to combine unbeatable research and investment expertise with invaluable local knowledge.

Don Ganguly, CEO of HomeUnion explained, "Single family rentals are a form of investment that offers security while still producing cash. Individuals will see the value of their property appreciate over the long term, yielding them a return on their investment predicted to be between 6 and 14%, while receiving a monthly cash income from renters occupying the building and taking care of it for you while they do. With Raleigh-Dunham receiving 700 new manufacturing jobs and 1,200 new technology jobs in the coming years, it is ideal placed for demand for housing to spike, while we have further properties available in twenty locations throughout these United States."
