

SimulationExams.com Releases Network+ N10-006 Practice Tests

SimulationExams.com, a leading practice tests provider, released CompTIA Network+ practice tests with 400+ questions. The tests include performance based questions using network simulations.

November 9, 2015 (FPRC) -- SimulationExams.com, a leading practice tests provider, revised its Network+ N10-006 practice tests (CompTIA NetPlus) to reflect latest exam objectives, and incorporating performance based simulation questions. The test engine features the following:

1. An integrated test engine which enables a user to download, install, any available tests,
2. Verify for any available updates, allowing to check for any updates with each from within the exam environment,
3. Download/Install/Uninstall any test module from within the exam environment
4. Ability to provide question feedback on any specific question while taking the test
5. Instant online activation using web-based interface.

In addition to the above, it is now possible to save, and review & retake previously taken tests. With the ability to verify for any revision updates, candidates can download and update any test to the latest version with minimum effort.

The CompTIA Network plus practice tests offered by SimulationExams includes 400+ questions with detailed explanations. The question database conforms to the exam objectives and provides the candidate with simulated exam environment similar to that of actual exam.

Other practice tests offered by SimulationExams.com include the following:

- a. A+ Certification (Aplus Certification)
- b. CCENT/CCNA Certification
- c. ITIL Certification,
- d. Security+Certification, and others.

The new N10-006 includes network simulations that offer hands-on training for the candidates.

The test engine is .net compliant, and thoroughly tested in XP, Vista, and Windows 7/8 platforms. High speed file downloads are made available using cloud platform.
