

AAA Storage Announces Grand Opening of New Palmetto, Florida Facility

Extending service and support to the Palmetto area helps meet the growing self-storage demand generated by recent population surges, publishes aaastorage.com

Palmetto, FL -- February 16, 2016 (FPRC) -- Census reports indicate the population of Palmetto has surged more than 70 percent over the last 25 years with an additional 7 percent growth projected by 2017. This uptick in area newcomers has driven up demand in the real estate industry as well as the self storage sector. On the heels of this development, Dal Anderson of AAA Storage has announced the addition of a new facility.

Anderson elaborated, "We're proud to be kicking off 2016 by celebrating the grand opening of AAA Storage Hwy 41 during the month of February. Formerly Jayson's Mini-Storage, this is our newest state-of-the-art, immaculately-maintained facility in the state of Florida. With the industry expanding by leaps and bounds in Palmetto and the surrounding areas, our team is happy to be expanding our reach to cater to the growing needs of our friends and neighbors here."

Under previous ownership, Jayson's Mini-Storage went into foreclosure in June of last year. This turn of events left a number of the facility's customers facing uncertainty regarding the future of their belongings. For many, these proceedings would have brought about the additional expense of moving truck rentals and relocating to less conveniently located facilities.

AAA Storage acquired the property during the latter half of 2015 and has since completed maintenance and upgrading efforts. The location offers units in an array of sizes for household goods as well as commercial equipment; additionally, RV storage and climate-controlled units for items vulnerable to the elements are available. Around-the-clock security monitoring has been implemented. Anderson notes the company has no plans to uproot the facility's current clients.

Concluded Anderson, "We feel the facility's current customer base has been left out in the cold, so to speak, for far too long and look forward to building a new level of trust with them as well as the remainder of the community. Our team is excited to offer area residents the best storage units in Palmetto FL through our newest facility and will continue to apply the same high standards of operation here as we do with all our storage facilities. Anyone in need of storage solutions should feel free to contact us at any time, and we're always available to address questions or concerns."

About AAA Storage Hwy 41:

The team of professional storage experts at AAA Storage Hwy 41 is dedicated to providing unmatched quality and service to create the self-storage experience customers expect and deserve. AAA Storage offers facilities throughout Texas, Florida, Oklahoma and North Carolina with a variety of unit sizes and types to accommodate customers' needs.
