

J.P. Investigative Group Increase Agent Presence Throughout East Coast Cargo Theft Hot-Spots

J.P. Investigative Group has identified hot-spots for cargo theft along the East Coast, and has increased its presence there to more quickly investigate and resolve cases.

San Diego, CA -- February 23, 2016 (FPRC) -- Cargo theft is a serious issue, as during transportation companies high value goods are in one place at a known time, meaning the commercial value of these heists can be huge. Many would also be surprised how difficult cargo theft investigations are, how far stolen goods will travel and how quickly, requiring investigators to have impressive specialist logistical knowledge on top of their many other skills and procedures. J.P. Investigative group specializes in Cargo Theft Investigations and Port Theft Investigations, and has increased their resources across the East Coast, where the majority of cargo theft now occurs.

As well as identifying and catching cargo thieves investigations can also in many cases result in the recovery of the cargo – the best possible result for companies – but only by acting quickly. The new resources will improve initial response times as well as how quickly the company can follow up leads and narrow down their investigation.

The company also offer civil and domestic investigations, corporate, legal and government investigations and more, ensuring they have a broad base of experience to draw upon when conducting cargo investigations on behalf of corporate clients.

A spokesperson for J.P. Investigative Group explained, “We have agents in the ‘hot spots’ on the East Coast where most cargo thefts occur. Furthermore, we’re on call 24/7, which means a lot of nights and weekends are spent working these crimes. This is all part of our tenacious approach to bringing these cases successfully to a close as quickly as possible. Time is of the essence, and it is the most precious resource we have, which is why we need to make sure we have plenty of all the other resources we need. That’s why we’ve bolstered our presence and capability, to make sure there are no limitations on what we can do for companies.”

About J.P. Investigative Group: Established in 1998 and incorporated in 2000, J.P. Investigative Group, Inc. is a woman-owned small business founded by Tracy Paonessa and Joe Paonessa. Tracy and Joe are licensed Private Investigators. J.P. Investigative Group, Inc. applies an integrated, layered approach that exploits the weakness of cargo thieves at multiple points and includes: integrated databases, a theft alert system, task force and investigations support, a tractor/trailer theft deterrence program and more. They pull out all the stops to ensure a successful investigation every time. For more information please visit: <http://www.jpinvestigations.com/>
