

## **Amherst Plumbing Services unveils redesigned website**

*Amherst Plumbing Services, a local plumbing company in Amherst, NY, recently launched a redesigned website with vibrant images and graphics and an easy-to-navigate layout.*

November 23, 2016 (FPRC) -- Amherst Plumbing Services in Amherst, NY recently launched its redesigned website at [www.amherstnyplumbing.com](http://www.amherstnyplumbing.com).

The new design features attractive images and graphics, and dynamic navigation that allows site visitors to quickly and easily find the information they are seeking. Additionally, the new site is mobile friendly and includes tap-to-call buttons that connect mobile users directly to a call to the business.

"We're really excited for our redesigned website and what it can do for us," said Gerald Johnson, long-time owner of Amherst Plumbing Services. "In 2016 and beyond, we've learned that having a mobile friendly website is a must. Not only that, the layout of the site will help our customers find information and allow us to better serve them. We're happy with how it turned out."

With the recent redesign launch, Amherst Plumbing Services also added social media accounts on Facebook, Twitter, YouTube and Google+ to bolster its online presence in its service area in Buffalo and Western New York.

The site redesign and social media implementation was led by Vincent Web Services.

Amherst Plumbing Services has a long history of providing expert local plumbing service options to Amherst, Buffalo and its suburbs. Its master plumbers deliver a wide-range of plumbing, heating and cooling services, including: repair, installation and maintenance. It also offers 24/7 emergency plumbing services throughout the year.
