CertExams.com Revises CCNP™ Switch Exam Simulator

CertExams.com, a leading Netsim software developer, revised it's CCNP™ Switch practice tests.

November 23, 2016 (FPRC) -- CertExams.com released CCNP Switch exams conforming the to latest 300 115 exam objectives. As you might be knowing, CCNP is the professional level certification offered by Cisco and is widely recognized in the computer networking industry. The CCNA® (Short for Cisco Certified Network Associate) is the basic requirement for appearing for CCNP. As the name implies, CCNA/CCNP are focused towards developing professional networking engineers, especially having knowledge about Cisco® networking products.

The practice tests offered by CertExams.com include 300+ highly relevant questions with answers and flash card explanations. The question bank conforms to the exam objectives as given below:

- 1.0 Layer 2 Technologies 65%
- 2.0 Infrastructure Security 20%
- 3.0 Infrastructure Services 15%

The topics had been thoroughly revised in comparison with the previous exam. Our practice tests simulate actual exam environment closely, so that candidates are better equipped to take the actual exam with confidence with thorough preparation.

About CCNP: CCNP (Short for Cisco® Certified Network Professional) is the mid-level certification offered by Cisco, and one needs to pass the following to obtain CCNP certification:

- 1. CCNP Route (300-101)
- 2. CCNP Switch (300-115), and
- 3. CCNP TShoot

Pre-requisites: You need to pass CCNA certification to appear for CCNP exams. The certifications are valid for 3 years, and a candidate needs to re-qualify for validity extension.
