Interactive residential security solutions provide 24-hour security against crime and hazards such as gas leaks and fires. They enable continuous monitoring and quick emergency response times. These solutions are accessible from remote locations through electronic devices such as smartphone, tablets and laptops. To provide better security, interactive services have been included by the key players. Some of the most popular services include the ability to remotely arm and disarm doors via smartphone applications such as video surveillance and locks, lighting and thermostat controls.

Alarm companies who began their business with old intrusion detection are now continuing to deliver interactive services to provide successful and advance home security solutions worldwide. Another factor such as wireless camera for home security redefined the meaning of security and protection with the integration of video analytics and facilitates with advanced features for a more robust, interactive and comprehensive mini-security system.

Further, the report also provides details of segmentation of the market. It is segmented on the basis of types and applications. The report splits globally into several key regions along with its production, sales, consumption, market share and the growth rate from the given forecast of 2011-2021. On the basis of its type, Interactive Residential Security market can be split into-

- Energy management and climate control systems
- PERS
- Healthcare systems
- Security and access control systems
- Lighting control systems

The report further describes that, due to rise in the aging population in the United States and increase in theft and burglary in residences, the demand for interactive residential security market such as energy management and PERS has enlarged & also boosted the sales of security products.

The report also provide details of the leading players in the global market along with company's basic information, product type, manufacturing base and competitors. Some of the key players are

mentioned below:

ADT
AT & T
CenturyLink
Honeywell International
Interlogix
Protect America
