

Probiotics One Named The #1 Probiotic by ProbioticsGuide.com

ProbioticsGuide.com recently selected Probiotics One Daily Support as their #1 probiotic supplement after testing nearly 100 brands.

January 9, 2017 (FPRC) -- Probiotics One is pleased to announce that their flagship probiotic supplement, Probiotics One Daily Support, has been named the #1 overall probiotic of the year by ProbioticsGuide.com.

Probiotics Guide is a widely-followed and respected industry website that focuses on cutting-edge probiotic information. Their experts continually buy and review a vast number of different probiotic brands and products.

In fact, ProbioticsGuide.com chose Probiotics One Daily Support as the best product of the year after comparing 103 different probiotic supplements. The criteria they use in testing probiotics include:

- Ingredient and Strain Profile
- Delivery System
- Allergy Concerns
- Price/Value
- Side Effects
- Guarantee

Kate Watson, the lead researcher at Probiotics Guide, had this to say about Probiotics One in particular, "Of all the probiotic supplements out there right now, Daily Support is currently our favorite! There are a number of reasons why I like it so much, but the main one is I just felt better while taking it."

Daily Support works by supporting both the digestive and immune system, which is extremely important for overall health. In addition, it also helps improve nutrient absorption, restores the balance of beneficial bacteria in the digestive tract and helps replenish bacteria killed by antibiotic use.

The manufacturer recommends taking one pearl tablet daily with or without food. And due to their patented LiveBac technology, Daily Support does not need to be refrigerated and lasts 18 months on the shelf.

More information about Probiotics One and their award-winning probiotics can be found on their website at www.ProbioticsOne.com.
