Initially, the report discusses the overview of the market. This section also encapsulates the market segmentation, definition and scope of cloud IAM. Identify and Access Management can be defined as a security framework that only enables the right individuals to securely access the right resources at the right time. Cloud IAM is an approach to rebuilding the traditional IT security environment by offering IAM solutions over the cloud. Several enterprises usually used on-premises IAM software to manage identity and access policies. But at present, companies fill more cloud services to their environments, the setup of managing identities is getting more complex. Thus, adopting cloud-based IAM solution becomes a logical step. Diverse technological environments, strict regulatory compliances, growing number of cyber-attacks are driving the need for IAM services for information security.

In the next section, the study presents a detailed segmentation of the global market. The market has been classified on the basis of types and application. By types it covers the following services:

- Access Management
- Directory Services
- Single Sign-On
- User Provisioning
- Audit Compliance and Governance Management
- Password Management

On the other hand, by applications it includes small & medium businesses as well as large enterprises. Among these, the demand of cloud-based SSO is another key factor encouraging the expansive adoption of the cloud IAM among enterprises. The major reason for this demand is that single sign-on gives access to all the applications using just one set of credentials.

The global IAM market is highly competitive with the presence of several vendors. Companies offer high-performance cloud IAM solutions to provide increased security at reduced costs. Some of the key vendors in the market are listed below:

CA Technologies
Dell Inc.
IBM Corporation
Intel Corporation
Ping Identity Corporation
Microsoft Corporation
Okta
Sailpoint Technologies Inc.
EMC Corporation
Onelogin Inc.
Centrify Corporation

The report also provides important information about the players which can prove helpful for the readers.

Facebook, Inc.
Haptik, Inc.
Atute Solutions
Pandorabots, Inc.
Kasisto Inc.
Microsoft Corporation
Yahoo
Helpshift
Toytalk (PullString Inc.)
Kiwi, Inc.
Slack Technologies, Inc.

About Market Research Hub

Market Research Hub (MRH) is a next-generation reseller of research reports and analysis. MRH's expansive collection of market research reports has been carefully curated to help key personnel and decision makers across industry verticals to clearly visualize their operating environment and take strategic steps.

MRH functions as an integrated platform for the following products and services: Objective and sound market forecasts, qualitative and quantitative analysis, incisive insight into defining industry trends, and market share estimates. Our reputation lies in delivering value and world-class capabilities to our clients.
