

Intracranial Pressure Monitoring Market Industry Key Players, Share, Trend, Applications, Segmentation and Forecast to 2022

Intracranial pressure (ICP) monitoring is used in treating patients suffering from severe brain injury, intracranial pressure monitoring hospitals such as Surgical Instruments

Intracranial pressure (ICP) monitoring is used in treating patients suffering from severe brain injury, intracranial pressure monitoring hospitals such as Surgical Instruments Pune, India - January 11, 2017 /MarketersMedia/ -- Intracranial Pressure (ICP) Monitoring Market is used in treating patients suffering from severe brain injury. In this process a sensor device is been used and placed inside the head to measure the pressure inside the skull and send it to a recording device

Intracranial pressure monitoring can be performed in following three ways

Intraventricular Catheter: is the most accurate method. In this method Intraventricular Catheter is inserted through a hole in the skull and place in the lateral ventricle.

Subdural Screw: In this method hollow screw is placed in the skull. It is placed between a membrane that protects the spinal cord and the brain.

Epidural Sensor: The Epidural Sensor is placed between the skull and dural tissue by drilling a hole in the skull

Intracranial pressure (ICP) monitoring market segmentation:

ICP monitoring market segmentation can be done by method, market, Instrument, applications and End-users.

ICP monitoring market by Method: Invasive and Non- invasive

ICP monitoring market by Market: external ventricular drain, fiber optic monitor, strain gauge transducer and air-pouch device market.

ICP monitoring market by Instrument: Devices and accessories

ICP monitoring market by Applications: Traumatic Brain Injury, Intracerebral Hemorrhage, Meningitis, and Subarachnoid Hemorrhage

ICP monitoring market by End-users: Trauma centers, hospitals, clinics and diagnostic laboratories.

Key Player

Natus Medical Inc. (U.S.)

Nihon Kohden Corporation (Japan)

Philips Healthcare (Netherlands)

GE Healthcare (U.K.)

Siemens Healthcare (Germany)

Compumedics Ltd. (Australia)

Electrical Geodesics Incorporated (U.S.)

Medtronic Inc. (Ireland)

CAS Medical Systems, Inc. (U.S.)

Advanced Brain Monitoring (U.S.)

Taste the market data and market information presented through more than 100 market data tables and figures spread in 136 numbers of pages of the project report. TOC of Intracranial Pressure (ICP) Monitoring Market

- 1 Executive Summary
 - 2 Scope of the Report
 - 3 Market Research Methodologies
 - 4 Market Landscape
 - 5 Industry Overview of Global Intracranial Pressure (ICP) Monitoring Market
 - 6 Market Trends
 - 7 Global Intracranial Pressure (ICP) Monitoring Market by Region
 - 8 Global Intracranial Pressure (ICP) Monitoring Market by Application
 - 9 Company Profiles
- Continued....

About Market Research Future

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.
