The Hays Quarterly Report is a guide to current recruitment trends and is released every quarter to show which skills, recruiting, salaries and candidate trends are in demand within different sectors. It is updated every quarter to keep up with fluctuating market trends.

The most recent quarterly report for the construction sector covers January's to March 2017 and has shown that the demand for employees within construction remains buoyant and is set to remain that way for the rest of 2017.

This demand for employees in the construction sector is reflected by Dingo Hire Perth's strong growth during the last quarters. The company state that the high demand for their Dingo Diggers reflects the buoyancy overall in the construction industry.

Dingo Diggers Perth is a provide of excavating and earth moving equipment for hire. The company hold all of their equipment on site and ready to go and includes mini diggers, manga diggers, trucks, skid steer and bobcat hire.

The site explains the benefits of hiring a dingo digger and lists its functions. The digger is a versatile piece of equipment allowing multiple jobs to be carried out without having to hire other equipment. The site states that it's all in the diggers four in one bucket which allows for grabbing, digging, shifting earth and levelling.

Dingo Diggers Perth consider themselves mini bobcats experts and will be able to expertly meet their customers needs by using their knowledge to deliver the best products and service. Their service also includes free delivery to all major Perth suburbs.
