

Anand Software and Training Releases Practice Tests for iOS

SimulationExams.com, a brand website of Anand Software and Training released practice tests for iOS compatible devices such as iPhone and iPad.

February 18, 2017 (FPRC) -- Simulationexams.com released exam simulators for several certs including CCNA, CCENT, and ICND2 for iOS operating system. As you might be aware, the exam simulators are available with Windows and Android OSes already. With iOS compatible software products, the exam simulators are available on all the software platforms viz. Windows, Android, and Apple iOS.

The practice tests are available in two categories, one is free version software and the other premium version of the software. The free version is limited to 60 questions, where as the premium version will have 300+ questions with answers. Flash card explanations are available for all the questions. The questions are prepared to conform to respective exam objectives, and to have similar difficulty level as that of the actual exam.

You may view all available exams for iOS by going to the link below:
