Cinemagraphs are almost impossible to ignore due to its easy to digest functions and amazing results. Social media is exploding with cinemagraphs that go viral. Cinemagraph is the best scroll-stopping content making people pay attention and giving them compelling content to share. March 13, 2017 /MarketersMedia/ -- Non-impressive posts or ads content is one of the main factors resulting in most of the marketers fail to generate viral traffic and lose money on Facebook ads. While scrolling through the news feed, people barely glimpse over traditional images that use photos and have a hard time to commit to watching a long-form video content. Big brands like Apple, Netflix, Canon, Mercedes-Benz, Dior, and others started using so-called cinemagraphs, which are a unique blend between an image and a video. If people want their content to skyrocket social shares, there is no better way than using cinemagraphs before everybody else starts using them. Unfortunately, creating a cinemagraph is hard if using the wrong tool, and It could take countless hours to make just one. It requires both technical skills and graphic design expertise. Now a brand new, revolutionary FlickGraph software, which makes cinemagraph creation super-easy and fast.

See FlickGraph demo here

With FlickGraph soft, users can create a cinemagraph from any video with repeat motion on the part of it, like hair on the wind, pouring liquid from the bottle, candle fire. Users also can shoot short 10 to 20 seconds videos with their phone, use stock videos, or download any of millions of videos with creative commons license for free. They can trim a cinemagraph length, tweak it by selecting repeat or bounce loop style, and change the looping part speed in just a few clicks.

FlickGraph software is about freedom. It is not cloud-based, so its users will never have to worry about the lag present in cloud-based video editing software, their project maintaining in an extensive processing queuing, being affected by slow internet connection or its complete lack.

Users are getting fascinating, eye-catching, viral cinemagraphs that are perfect for both call to action or establishing their brand. All that means that user's social post looks amazing, attracts clicks, and is liked, shared, pinned, and tweeted to increase their exposure. Users can also use cinemagraphs on website, blog, e-commerce store, or inside an email.

Tens of thousands of creators, marketers, entrepreneurs and businesses are already using the software with great success every day. Users can save time and money making high converting cinemagraphs in minutes just by using the simple and most advanced, real-time cinemagraphs creator, FlickGraph.

"I am so excited with this approach to getting more viral shares more leads more action from all my online efforts. A reputation and video marketing expert having the edge over other agencies makes my life easier and help me the go-to company for cutting edge attention to my client's demographics in all areas of my business. Thanks Darius for bringing us the best tools around to build our success." Joseph Vaughn, a satisfied customer of Flick Graph, shared.
