

Foretec Announces The Launch Of A New Blog

Foretec launches a new blog to help local business owners learn more about SEO.

Foretec launches a new blog to help local business owners learn more about SEO. Davao, Philippines - March 13, 2017 /MarketersMedia/ -- Foretec, an established leader in local SEO, today announced the launch of a new blog to give local business owners useful information about the latest strategies in local search and marketing. The website can be viewed at <http://www.foretec.com.ph/blog/>.

According to Foretec Ph Co-Owner Charles Vallena, the website will officially go live on 13 March 2017.

"With the release of this blog, we're hoping to provide informative articles that would benefit small business owners. We want to teach them the basics of SEO and how they can market their business at a local scale. Everyone is now using search engines such as Google to look for a service or company, so basically, a local business who doesn't have online presence loses this big market of online searchers," said Vallena. "More things will be discussed on our blog such as how they can promote their business online at a low-cost. We haven't really focused on blogging, so we have decided to engage with our readers, especially local businesses this year. Hopefully, we'll be able to teach them the basics of SEO through this blog."
