

Neurorehabilitation Devices Market is Expected to Reach USD 2.25 Billion by 2022

Neurorehabilitation Devices Market Information, by Product Type, Application and by End User - Forecast to 2022

Neurorehabilitation Devices Market Information, by Product Type, Application and by End User - Forecast to 2022 Pune, India - March 14, 2017 /MarketMedia/ -- Market research future has a half cooked research report on global Neurorehabilitation devices market. The global market for Neurorehabilitation devices is growing continuously and expected to reach USD 2.25 Billion by the end of 2022.

Test the market data and market information presented through more than 50 market data tables and figures spread over 80 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "Neurorehabilitation devices Market Research Report - Global Forecast to 2022".

Market Highlights:

The global Neurorehabilitation devices market has been evaluated as steadily growing market and it is expected that the market will continue to grow similarly in the near future. Neurorehabilitation is a doctor-supervised recovery process designed for the patients with neurological disorders, stroke, trauma, head injury, and nervous system disorders. It is a multifaceted rehabilitation process that aims to aid patients in improving function of the body after traumatic brain injuries, reducing the symptoms of neurological disorders, and improve the overall well-being of the patient.

There has been great enhancement in the scope and the outcome of Neurorehabilitation due to the continuous development in neuroimaging techniques over the last decade. Nowadays, scientists are implementing the use of robotics and other advanced technologies with Neurorehabilitation in order to provide significant improvements in the treatment, therapies and rehab techniques for the patients suffering from different neurological disorders. Many of the companies are developing interactive video games and virtual reality simulations. These virtual reality simulations and video games help in speeding up the therapy by challenging the mind of patients and enables them to recover faster.

The increased number of neurological disorders, rising number of cases of vehicular accidents and the spinal or brain injuries caused in it, development of the new rehab techniques & routine, use of the robotics rehabilitation programs, increasing use of the medical devices in cognitive recalibration, and Neurorehabilitation process are some of the factors that are driving the growth of the Neurorehabilitation devices market. However the high cost of the installation of the devices, lack of trained personnel to operate these systems, lack of awareness in developing countries are some of the factors causing hindrance in the growth of Neurorehabilitation devices market.

Key Players of Neurorehabilitation Devices Market:

- o Bioness, Inc.
- o Bionik Labs
- o Bioxtreme
- o Denecor
- o Ectron Ltd.
- o Ekso Bionics
- o Helius Medical Technologies
- o Hocoma AG
- o MagVenture A/S

- o Medtronic,
- o Neuro Style
- o Rehab-Robotics Company Limited

Segmentation:

Neurorehabilitation devices market has been segmented on the basis of product type which comprises of neuro-robotic devices, wearable devices, non-invasive stimulators, brain computer interface, and others. On the basis of application, the market is segmented into Parkinson's disease, spinal cord injury, brain trauma injury, stroke, cerebral palsy, schizophrenia, and others. On the basis of end user, market is segmented into hospitals/clinics, cognitive care centers, research institutes, and others.

Brief TOC for Neurorehabilitation Devices Market:

- 1 Introduction
 - 1.1 Definition
 - 1.2 Scope of Study
 - 1.2.1 Research Objective
 - 1.2.2 Assumptions & Limitations
 - 1.2.2.1 Assumptions
 - 1.2.2.2 Limitations
 - 1.3 Market Structure
- 2 Research Methodology
 - 2.1 Research Process:
 - 2.2 Primary Research
 - 2.3 Secondary Research
- 3 Market Dynamics
 - 3.1 Drivers
 - 3.2 Restraints
 - 3.3 Opportunities
 - 3.4 Macroeconomic Indicators
- 4 Market Factor Analysis
 - 4.1 Porters Five Forces Model
 - 4.2 Bargaining Power of Suppliers
 - 4.3 Bargaining Power of Buyers
 - 4.4 Threat of New Entrants
 - 4.5 Threat of Substitutes
 - 4.6 Intensity of Rivalry
- 5 Global Neurorehabilitation Devices Market, By Product Type
 - 5.1 Neuro-Robotic Devices
 - 5.2 Wearable Devices
 - 5.3 Non-Invasive Stimulators
 - 5.4 Brain Computer Interface

Regional Analysis:

Depending on geographic region, Neurorehabilitation devices market is segmented into four key regions: Americas, Europe, Asia-Pacific, and Middle East & Africa. Globally America is the largest market for Neurorehabilitation devices. North American region is the leading market in the America region. Europe is the second-largest market globally for Neurorehabilitation devices which is expected to continue its growth in the near future. Asia-pacific region is expected to be fastest

growing region in Neurorehabilitation devices market. Middle East & Africa region is expected to have a limited but steady growth in the market.

Intended Audience:

- o Neurorehabilitation devices manufacturers and suppliers
- o Contract Research Organizations (CROs)
- o Research and Development (R&D) Companies
- o Government Research Laboratories
- o Independent Research Laboratories
- o Government and Independent Regulatory Authorities
- o Market Research and Consulting Service Providers
- o Academic Institutes and Universities

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
