*Global Database as a Service Market, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years.*

Global Database as a Service Market, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. March 14, 2017 /MarketersMedia/ -- Organizations across industries embrace cost-effective DBaaS solutions to meet their complex database management requirement and outperform their competitors. The need to gain flexibility while driving down data costs, the exponential growth in data due to increased implementation of enterprise mobility, and the rapid adoption of cloud computing positively impact the market growth.

In today's world of information, every industry is experiencing disruptive changes in the way businesses are done worldwide. The generation of exponential data volumes in the digital universe is driven by the higher adoption of cloud services. Organizations will continue creating and consuming data on multiple devices. Some of the industry verticals such as healthcare, retail and financial services are among the most data-driven industries.

Publisher's analysts forecast the global database as a service (DBaaS) market to grow at a CAGR of 65.49% during the period 2016-2020.
