

InstaMate 2.0 Released Its New Version To Help eCommerce Marketers Get More Success In Building Their Brand

If you do not want to find content manually and use third party apps to edit the content so that it resonates and suits the requirement of your mobile device, you should take a close look at this newly updated product called InstaMate 2.0.

If you do not want to find content manually and use third party apps to edit the content so that it resonates and suits the requirement of your mobile device, you should take a close look at this newly updated product called InstaMate 2.0. March 14, 2017 /MarketersMedia/ -- InstaMate 2.0 developed by Luke Maguire and Simon Harries is the first all-in-one Instagram marketing tool which allows marketers to drive free traffic, build a brand and generate revenues by using the world's most engaged social network. It taps into all the Instagram updates of the last year known as InstaMate 1.0. So with this 2.0 version, users will get more free traffic, earn more income, and do it even easier than before.

Click here to see InstaMate 2 demo and review.

The software enables marketers to search for the most trending content and use it to engage their prospect while driving free organic to their profiles from many of their automatic engagements.

Here are some exclusive features within InstaMate 2.0 software:

- o Automate your Instagram account for life: Users will have their Instagram posting the most popular content on the internet daily in any niche whilst engaging with the top brands followers in their niche in complete autopilot.

- o Make your authority sites generate income with one click: Although having a large audience is great, the key customers want is to making income. Therefore, the producers have included a complete content optimizer to put in call-to-action buttons, filters, watermarks, text and sizing instantly.

- o World's first direct web Instagram poster and scheduler: Users will not have to concern about syncing photos to their phone. They can use third party applications to edit and setting alarms to remind themselves the time to post. They can also have Instamate post the most viral content 24/7 for them.

- o World's first Instagram affiliate cloaker tool included: The software offers marketers many methods to take advantage of the viral content while having a massive reach. One of these methods is by affiliate marketing, and the creators have invented a proven software that safely lets marketers insert affiliate links to Instagram for direct one click sales.

- o 100% Set and forget: Users just need to search any keyword, select which content that has gone viral previously, edit accordingly with the top hashtags in their niche and click Schedule, then step back and let the software do its job.

- o First software to ever allow Instagram video uploads from your computer: Now users will have the ability upload video directly from their PC and repost others videos as well.

- o Expenses for ads are no longer necessary: Recent research shows that Instagram's organic engagement is over double that of Facebook. Moreover, Instagram does not limit organic reach like Facebook does. As a result, marketers can increase their organic reach by millions without paying for ads by using Instamate.

- o First and only system that allows Instagram Story uploads: One of the biggest updates to Instagram is their stories feature intended to replace Snapchat. Instamate enables its users to post directly to their story from their computer within minutes; it is that simple.

Instamate 2 is designed to be easy to follow. Users begin with choosing a niche and get an affiliate

product from Amazon, Clickbank or any other network. Then grab this software and follow the simple instructions to get free traffic coming to their offer and buying through their link. After that, users just need to rinse and repeat. Thanks to the power of this specific social platform and this revolutionary software, that is all it takes to make the system work.
