

Dr. Luis A. Murrain Jr. to Join The World Egg Bank as Medical Director

The World Bank announces the addition of Dr. Luis A. Murrain Jr., M.D., D.O., FACMG, FACOG to oversee egg donor monitoring and retrieval in their state of the art laboratory and egg retrieval center in Arizona.

The World Bank announces the addition of Dr. Luis A. Murrain Jr., M.D., D.O., FACMG, FACOG to oversee egg donor monitoring and retrieval in their state of the art laboratory and egg retrieval center in Arizona. Phoenix, United States - March 14, 2017 /PressCable/ --

Dr. Luis A. Murrain Jr., M.D., D.O., FACMG, FACOG has joined The World Egg Bank (TWEB) as Medical Director. In this role, Dr. Murrain is responsible for all egg donor monitoring and retrievals ensuring TWEB's proven quality and outcomes, and extraordinary egg donor care.

Dr. Murrain has been helping men and women realize their dream of building a family using 24-chromosome genetics testing of infertility and treatment for over a decade. He is a graduate of Michigan State University, College of Osteopathic Medicine. In 2002, he completed his internship at Genesys Regional Medical Center. His Residency in Obstetrics and Gynecology at Summa Health Systems, Akron City Hospital was completed in 2006. After serving as Chief Resident, he received additional training by completing a fellowship in Reproductive Genetics at the Albert Einstein College of Medicine/Montefiore Medical Center in New York and received extensive training in the genetics of infertility and became board-certified. He has also received training in In-Vitro Fertilization, Intra-Cytoplasmic Sperm Injection and Pre-Implantation Genetic Diagnosis. In 2008, Dr. Murrain joined the GYFT Clinic, a fertility clinic in Tacoma, WA and later became the medical director. In 2013, Dr. Murrain opened his first clinic, Genetics & Fertility Centers in Vancouver, WA.

"It is an exciting time in the Fertility Industry with the advancement and impressive outcomes seen specifically with the use of donor eggs. The World Egg Bank's data is remarkable and I look forward to being part of their recent expansion to a singular focus, state of the art retrieval center", said Dr. Murrain.

TWEB's corporate headquarters in Phoenix, AZ hosts an onsite state of the art laboratory and egg retrieval facility. Performing egg retrievals in-house is unique to TWEB and provides a level of quality control and transparency unmatched by other egg banks. TWEB is the only egg bank that controls all egg banking, from egg donor recruiting, stimulation, retrieval, vitrification, patient donor selection and shipping, from a single location with the same, experienced staff, for each ova banked.

Diana Thomas, CEO stated "We are honored to have Dr. Murrain join our team and believe his expertise as a board certified geneticist will allow us to remain at the forefront of genetics as it begins to have more of an impact on our field."

TWEB is the industry leader in oocyte cryopreservation. TWEB is the largest and longest operating donor egg bank in the world, freezing oocytes since 2004. With over 450 donors available in an online database, best in industry pregnancy rates, worldwide shipping available, and clinics trained throughout the world, TWEB offers convenience, reliability and expertise to couples and individuals facing infertility. TWEB does not require clinic contracts or exclusivity and TWEB will train and verify new clinics at no cost. Intended parents can register for free to view complete donor profiles.
