Designer Teez, the pop culture and custom printing online clothes store, has launched a new series of comedic designs. The company changed hands in 2013 and since then has gone from strength to strength, under the guidance of new owners Amy Schuett and Tyler Welch. Designer Teez prides itself on its high levels of customer service, and the new series of designs is part of that goal.

More information can be found at: <https://designerteez.com>.

Designer Teez explains that it has a steadfast belief that customer service is the key to successful relationships and building a strong company. Although t-shirt sales accounts for billions of dollars worth of sales every year, Designer Teez knows that it has to earn each sale with a strong foundation of trust, respect and high quality service.

The company is expanding its brand to give customers more choice when it comes to choosing a vendor to print Team Teez, Family Reunion Teez, Wedding Experience Teez, Company Outing Teez and more.

Each design offered in the company's online store was designed with the customer in mind. The Designer Teez site explains that the thought process behind each design is to cater for people who want to be able to express their mood, or find the perfect gift, or find an edgy new look.

A broad range of designs are available, created using a new type of printing equipment and graphic printer so customers can get the best quality when it comes to custom printed unique shirt designs.

Customers can browse through the new designs with ease, and by clicking on each item they get further information on the product and can choose from a range of different colors.

Some of the most popular new designs include the "I don't snore ... I dream I'm a motorcycle" slogan, as well as tie dye designs, and "I'm with stupid" designs, all available in a choice of different colors.

Every design comes with a full money back guarantee, so customers can purchase safe in the knowledge that they will be looked after at every stage of the process. Further details can be found on the URL above.
