Click to learn about this new disruptive technology

This is a disruptive technology in the mobile app world - a new change of pace. The business, "Old Hickory Enterprises", will be celebrating the launch of the new Mobile App Store and App Club service. To promote this, there will be a Facebook Live Launch with parent company. It's reported the event will take place on Wednesday March 15th.

In a space where most competitors simply launch an app, and just put the product or app online. and fail to cause much of a stir, Old Hickory Enterprises has opted to be a little more aggressive. This is the new disruptive technology in the mobile app world. with the inception of the new Mobile App Store and App Club service.

Michael A Witles, President of Old Hickory Enterprises says: "This is expected to be a disruptive technology in the mobile app world with the new Mobile App Store and App Club service launch because this is going to revolutionize the mobile app business and how people access these apps. It should be really worthwhile and the hope is that it generates millions of hit to the website. The celebration will be great, haha, unless of course everybody decides they no longer want to do apps on their phones.....yeah like that is going to happen.!

Old Hickory Enterprises has always thrived on the idea of standing out and making a commotion. It's all part of the fun and it's going to be a lot of excitement. This celebration will show the world why a mobile app membership is the best way to proceed, which we think is better than businesses who choose to do things the 'regular' way. This launch celebration is just one of the many ways Old Hickory Enterprises achieves that goal.

When asked about the release of the new Mobile App Store and App Club service, Michael A Witles said: "This is going to be a real hit because this new approach is appealing to people of all ages, due to its all-inclusive nature, safety of the apps, and the variety of apps available. In addition, this offers a way to generate an extra income for those who wish to get involved.

Old Hickory Enterprises's release of the new Mobile App Store and App Club service is set to 'go live' Wednesday March 15th. To find out more about the service and Old Hickory Enterprises itself, please visit [www.SavingWithMichael.com](http://www.SavingWithMichael.com)
