

Telematics In Automotive Market Industry Analysis, Size, Share, Growth, Trends By Forecast To 2022

Global Telematics in automotive market Information Report by Type (Embedded, Integrated), services (Information & Navigation) by vehicle type (Passenger Car, LCV) By Region - Global Forecast To 2022

Global Telematics in automotive market Information Report by Type (Embedded, Integrated), services (Information & Navigation) by vehicle type (Passenger Car, LCV) By Region - Global Forecast To 2022 Pune, India - March 15, 2017 /MarketMedia/ -- Market Highlights:

The Global Telematics In Automotive Market is majorly driven by the global need to reduce traffic congestions with the rapid urbanization. The increasing private and public demand for ensuring smart coordination of large-scale fleet tracking and enabling precise tracking of vehicles to enhance transportation safety on roads is also majorly driving the growth of this market. The integration of GPS systems with real time monitoring of vehicles is driving the growth of this market.

Taste the market data and market information presented through more than 85 market data tables and figures spread in 111 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "Global Telematics In Automotive Market Information From 2016 To 2022"

Major Key Players:

- o Digicore Technology Pvt. Ltd. (India)
- o ID Systems Inc.(U.S.)
- o FleetMatics Irl Limited (U.S.)
- o Teletrac Inc. (U.S.)
- o AutoTrac (Netherlands)
- o Omnitrac LLC (U.S.)
- o Masternaut Limited (U.K.)
- o TomTom Telematics (Netherlands)
- o Telogis Co(California)
- o CalAmp (U.S.)

Study Objectives Of Telematics In Automotive Market:

- o To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the Telematics in automotive market
- o To provide insights about factors affecting the market growth
- o To Analyse the Global Telematics in automotive market based on various factors such as supply chain analysis, and Porter's five force analysis
- o To provide historical and forecast revenue of the market segments and sub-segments with respect to regions and their respective key countries
- o To provide country level analysis of the market with respect to the current market size and future prospective
- o To provide country level analysis of the market for segments by type, services, vehicle type and region
- o To provide strategic profiling of key players in the market, comprehensively analysing their core competencies, and drawing a competitive landscape for the market
- o To track and analyse competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global

Engineering plastic Market.

Intended Audience:

- o Automotive telematics manufacturers
- o Distributer & Supplier companies
- o End Users
- o consultants and Investment bankers
- o Government as well as Independent Regulatory Authorities

Market Research Analysis:

Among all services, information & navigation is expected to grow rapidly, owing to the increased features of telematics in automotive such as an embedded map in the system which can support local calculation of the routes and reception of routes computed at a designated center. Telematics in automotive also ensure delivering proper information about navigation in terms of displaying turn arrows over simplified road shapes and filling a turn arrow according to a vehicle's positions.

North America is expected to be the largest region in the telematics in automotive market. Asia Pacific region is expected to witness the highest growth in the forecast period. Growing domestic demand for wireless communication system in vehicles in the developing countries such as China and India are expected to boost the telematics in automotive market in the region. Rapid increase in government regulations and the increased consumer willingness to pay more for telematics equipped vehicles, is motivating the market leaders to invest in the emerging markets of Asia Pacific.

Scope Of The Report:

This study provides an overview of the Global Telematics in automotive market, tracking three market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific (APAC) and Rest of the World (ROW). The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the Global Telematics in automotive market by its type, services, vehicle type and region. The report for Telematics In Automotive Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

Table Of Contents

- 1.Executive Summary
- 2.Research Methodology
 - 2.1 Scope Of The Study
 - 2.1.1 Definition
 - 2.1.2 Research Objective
 - 2.1.3 Assumptions
 - 2.1.4 Limitations
 - 2.2 Research Process
 - 2.2.1 Primary Research
 - 2.2.2 Secondary Research

- 2.3 Market Size Estimation
- 2.4 Forecast Model
- 3. Market Dynamics
 - 3.1 Market Drivers
 - 3.2 Market Inhibitors
 - 3.3 Supply/Value Chain Analysis
 - 3.4 Porter's Five Forces Analysis
- 4. Global Telematics For Automotive Market, By Type
 - 4.1 Embedded
 - 4.2 Integrated
 - 4.3 Tethered
- 5. Global Telematics For Automotive Market, By Services
 - 5.1 Introduction
 - 5.2 Information & Navigation
 - 5.3 Safety & Security
 - 5.4 Entertainment
 - 5.5 Remote Diagnostics

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
