

## **Global Hemianopsia Market Estimated To Grow By CAGR Of 6.1% During The Period 2016 To 2022**

*Global Hemianopsia Market Information, by type (homonymous Hemianopsia, Quadrantanopsia and others), by treatment (vision restoration therapy, visual field expander aid and others), by end user (hospital, clinics and others) - Forecast to 2022*

Global Hemianopsia Market Information, by type (homonymous Hemianopsia, Quadrantanopsia and others), by treatment (vision restoration therapy, visual field expander aid and others), by end user (hospital, clinics and others) - Forecast to 2022 Pune, India - March 15, 2017 /MarketMedia/ --  
Market Highlights:

Hemianopsia is a loss of vision in half of visual field of one or both the eyes. It occurs when there is damage to the optic nerves, optic chiasm, or visual processing regions of the brain. The common causes of this disease are stroke, brain tumor and trauma to the brain. In this condition left side of the brain receives vision from right eye or vice versa.

The global Hemianopsia market has been evaluated as a growing market and it is expected that the market will touch high growth figures. The rising aged population affected by Hemianopsia and increasing demand for new and improved treatment is boosting the revenues per year.

Major Key Players

- o RetroSense Therapeutics, LLC
- o Chadwick Optical
- o Healio
- o ZEISS
- o Vycor Medical, Inc.,

Market Segmentation

Segmentation by Type

o Homonymous Hemianopsia

o Quadrantanopsia

o Others

Segmentation by treatment

o Vision Restoration Therapy

o Visual Field Expander Aid

o Others

Segmentation by end user

o Hospital

o Clinics

o Others.

Together the market data comprise and discuss with the basic assessments on the competitive scenarios & strategies, of the global Hemianopsia market, including the high-growth regions, countries and their political, economic and technological environments. Furthermore the project report also provides the views over the historical market values as well as, pricing and cost analysis of the same.
