

## **Biopsy Devices Market is Expected to Grow at a CAGR of 6.4% by 2022**

*Global Biopsy Devices Market Information, By Product Type, By Application, By End User - Forecast to 2022*

Global Biopsy Devices Market Information, By Product Type, By Application, By End User - Forecast to 2022 Pune, India - March 15, 2017 /MarketResearchFuture/ -- Market research future published a half-cooked research report on global biopsy devices market. The global biopsy devices market is expected to grow at a CAGR of 6.4% during the period 2016 to 2022.

Test the market data and market information presented through more than 60 market data tables and figures spread over 80 numbers of pages of the project report. Avail the in-depth table of content (TOC) & market synopsis on "Biopsy Devices Market Research Report - Global Forecast to 2022".

Market Highlights:

Biopsy is a type of diagnostic test which is used to study a certain type of disease. In some cases, biopsies can be done by the removal of a small amount of tissue with a needle while others involve surgically removing an entire lump or nodule which seems suspicious. It helps to determine whether the patient have cancer or some other condition. They are commonly performed with the image guiding systems such as ultrasound, x-ray, computed tomography (CT), or magnetic resonance imaging (MRI).

The devices used for doing these tests include biopsy guns, biopsy guidance system, biopsy needles and forceps among others. Biopsy guns are those device that are designed for the automatic extraction of core tissue samples from an anatomic structure of the body while the biopsy needles are used to perform function like fine-needle aspiration, core needle biopsy, and vacuum-assisted biopsy among others. Biopsy guidance system is commonly used to provide a definitive diagnosis of breast cancer and biopsy forceps are used during minimally invasive GI and urologic endoscopy for collecting biopsies.

The market for biopsy devices is growing steadily. The increasing awareness among the patient population for the early detection of cancer, rising innovations and demand for improved products to perform biopsy procedures has fueled the growth of the global biopsy devices market. However apart from the factors leading to the growth of this market, there are some restraints hampering the market growth such as advancement in the technology has shoot up the prices of the biopsy devices, changing reimbursement policies are some factors restraining the growth of biopsy devices market.

Global Biopsy Devices Market:

The Global Biopsy devices market has been evaluated as a growing market and it is expected that the market will touch high growth figures in future. Factors such increasing demand for minimally invasive procedures and growing need for the early diagnosis of the chronic diseases to determine the cancer or the related condition will help in driving the growth of the market. The global Biopsy devices market is expected to grow with CAGR of 6.4% during the forecasted period.

Key Players of Biopsy Devices Market:

- o Precision Biopsy, LLC
- o Scion Medical Technologies LLC.
- o Cook Medical, Hologic, Inc.,
- o Leica Biosystems

- o Argon Medical Devices, Inc.
- o C. R. Bard, Inc.
- o Creganna
- o Integra LifeSciences Corporation
- o Focal Therapeutics, Inc.

Segmentation:

Global biopsy devices market has been segmented on the basis of product type which comprises of biopsy guns, biopsy guidance system, biopsy needles, forceps and others. On the basis of application; market is segmented into surgical biopsy, skin biopsy, needle biopsy, bone marrow biopsy, Cancer diagnosis and others. On the basis of end users; market is segmented hospitals, specialty clinics, diagnostic centers, academic & research institutes and others.

Brief TOC for Biopsy Devices Market:

- 1 Introduction
  - 1.1 Definition
  - 1.2 Scope of Study
  - 1.3 Research Objective
  - 1.4 Assumptions & Limitations
  - 1.5 Market Structure:
- 2 Research Methodology
  - 2.1 Research Process
  - 2.2 Primary Research
  - 2.3 Secondary Research
- 3 Market Dynamics
  - 3.1 Drivers
  - 3.2 Restraints
  - 3.3 Opportunities
  - 3.4 Challenges
  - 3.5 Macroeconomic Indicators
- 4 Market Factor Analysis
  - 4.1 Porter's five forces model
    - 4.1.1 Bargaining Power of suppliers
    - 4.1.2 Bargaining Power of Customer
    - 4.1.3 Intensity of Competitor's
    - 4.1.4 Threat of New Entrants
- 5 Global Biopsy Devices Market, by Product Type
  - 5.1 Introduction
    - 5.1.1 Biopsy Guns
    - 5.1.2 Biopsy Guidance System
    - 5.1.3 Biopsy Needles
    - 5.1.4 Biopsy Forceps
    - 5.1.5 Others

Continue...

Regional Analysis:

Depending on geographic region, Biopsy devices market is segmented into four key regions: Americas, Europe, Asia Pacific, and Middle East & Africa. Globally, Americas is the largest market for biopsy devices as they deploy the most advanced techniques to determine or examine certain disease especially in case of cancers and acceptance of these devices by the healthcare professionals. Europe is the second-largest market for biopsy devices. Asia pacific region is expected to be fastest growing region in biopsy devices market due to increasing adoption of biopsy

techniques by the healthcare providers and increasing expenditure in the healthcare sector.

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
