Mentalist Ehud Segev recorded a massive performance in Ghana, Africa

March 15, 2017 (FPRC) -- Ehud Segev, a globally renowned mentalist, and mind-reader recorded his latest performance in Accra, the capital city of Ghana. This was a high-profile event that was attended by notable members of society. And like most other of Ehud's performance, it was marked by mindreading, supernatural features, light comedy and bouts of cheers from the audience. This is the latest performance that Mr. Ehud has done in what appears to be a very busy year for him.

Ehud Segev is also known as the Mentalizer. He started entertaining people when he was a teenager. Born and bred in Israel, Ehud started reading books on mind reading, body language, mysticism and other cryptic subjects when he was a young boy. Rather than spend his time playing with other children outside, the Mentalizer spent days engulfed in these texts. By the time he was 19 years old, he was already a sensation in his country – Israel. Ever since then, Mr. Segev has breached international borders with his entertainment style. Among other feats, he was awarded the EB-1 classification by the U.S Department of State following his work entertaining U.S forces in faraway basis.

Ehud's Ghana performance was meant to commemorate the Jewish festival of Purim. Members of the local Jewish community were in attendance, as well as prominent members of Ghanaian society. Apparently, the show was a major hit. Mr. Segev received a lasting applause from the audience, who were marveled by his wit and powers of the human mind.

Ehud Segev has appeared on major Television networks and is currently ranked among the top mentalists in the world. He once featured in NBC's hit show, Phenomenon, alongside with other renowned mentalists and mind readers.

Alongside traveling to entertain guests around the world, Mr. Segev also runs Mentalizer Education. This is a unique platform that he uses to share knowledge on mindreading, body language and other similar subjects with his audience. Mentalizer Education also has a coaching program that teaches people how they can enhance various mental skills such as understanding body language, and leadership skills. Hannah Tiram, who works at Mentalizer Education, has said that Ehud's goal is to share as much knowledge as possible with his audience.

When confronted by press members regarding the nature of his skills, Mr. Segev has denied being a magician. Ehud says that his abilities have everything to do with the innate powers of the human mind and that everyone who's dedicated enough can master the same abilities. According to him, it's all about listening to the mind and mastering those abilities that are hidden beyond plain sight.
