The company provides electrical system design and installation, lighting maintenance and repair, and emergency electrical services. Phoenix, United States - March 15, 2017 /PressCable/ --

AZ State Electric, an electrical company based in Chandler, AZ, announced the opening of a new location in Phoenix providing a wide range of commercial electrical services.

More information can be found at <http://azstateelectric.com>.

Electrical systems are crucial for businesses large and small, as the energy consumption of commercial facilities is typically significantly higher than that of residential locations. For this reason, high-quality electrical system installation is essential to avoid potential electrical hazards, and constant maintenance and proper repair services are also necessary.

However, due to the busy schedule of many electrical contractors, 24/7 emergency services are often unavailable, thus causing business owners significant financial losses.

AZ State Electric is a professional electrical company which has expanded its services into the Phoenix metropolitan area. The company provides a wide variety of services, specializing in high-quality commercial electrical installation, maintenance, and emergency repair.

AZ State Electric offers a wide range of commercial electrical installation services for commercial locations of all types and sizes. The company provides a diversity of lighting installation, including motion lights, commercial lights and power outlets, showroom lighting, suspended lighting systems, parking lot lighting installation and many others.

The company also provides fire alarm system circuits, smoke detectors, circuit relocation or additional circuits and many other electrical installation services.

The Phoenix electrical company works with professional, licensed and certified technicians to provide high-quality, safe and reliable services. The company offers complete electrical systems design and installation services for all types of electrical systems.

AZ State Electric is one of the few electrical contractors in the Phoenix area that offers 24/7 emergency services. The company provides lighting repair and removal, equipment hook-ups and disconnects, power system troubleshooting, code violation corrections and many other services.

All AZ State Electric interventions are performed using state-of-the-art equipment and following all state and federal regulations.
