Global Food Delivery and Takeaway Market is forecasted to grow at a CAGR of 15.25% during 2016 - 2021. The strong growth in Global Food Delivery and Takeaway market is driven by Convenience that these online food ordering platforms provide in food ordering, access to variety of food at one virtual marketplace and option to pay online. Apart from that, the increasing hectic work schedule, congested metropolitan cities, easy access to internet and increasing smartphone penetration has been impelling growth in the Online food ordering and takeaway market.

The orders placed for delivery hold the major percentage share in the total food delivery and takeaway market, and is projected to grow at a faster growth in the future owing to the rise in busy work schedules in the metropolitan cities. The online food ordering is expected to rise in the forecasted period as it easy to use and avoid any ambiguity in food order placement. Among the regions, North America is predicted to advance at the highest rate, mainly driven by the presence of large and well organized food service sector and continuous innovation in the food ordering and delivery segment, Economic growth and high urbanization rate with higher disposable income.
