

Cellunlocker Now Announces Offers For iPhone Unlock Codes

Sign up with Cellunlocker.net to unlock ATT iPhone for free

Sign up with Cellunlocker.net to unlock ATT iPhone for free Vancouver, Canada - March 16, 2017 /MarketersMedia/ -- Cellunlocker.net regularly announces discounts offers for unlock codes. This time they've announced free iPhone unlock codes to select users. To qualify for the offer, visitors are required to sign up with the website.

"You can either sign up with us, or subscribe to our Facebook, Twitter, or G+ page for more information about the offer. We announce free unlock code offers very often on our social media pages, and to clients who sign up with us," claims a spokesperson for the website.

Unlocking the phone has several advantages. Users get to save on roaming charges when traveling outside the country. They also get to switch carriers at will. "Unlocking your iPhone also increases its resale value. This is a permanent unlock and immune to firmware updates as well," claims the spokesperson. Besides ATT unlocks, the website also helps to unlock T-mobile and other network carriers.

Unlocking the phone does not void its warranty, nor render the phone unusable. Users do not have to deal with complicated software or jailbreaking. To unlock ATT iPhones, users have to send Cellunlocker their IMEI code along with details of the make and model of the phone. They also have to send their email address. The website send the codes after payment is received.

"We guarantee 100% unlock codes. No other website can provide codes faster than Cellunlocker and yet claim lowest price," adds the spokesperson.
