Smile Savers Dentistry, a dental office in Columbia, Maryland, updates and launches new official website. Columbia, United States - March 16, 2017 /PressCable/ -- Smile Savers Dentistry, a Columbia, Maryland-based full-service general and cosmetic dentistry office committed to providing comprehensive dental care to all local community members, this past February officially unveiled their brand-new, interactive website interface for making viewing their services as streamlined and easy as possible.

Committed to the overall patient experience, from the very beginning of booking an appointment to the finished smiling result, Smile Savers Dentistry wanted to update their website to reflect their unmatched patient support while also highlighting their unique features as a provider of high quality dentistry.

"Our new website is now a real representation of who we are at Smile Savers Dentistry, and what we are all about. It took quite a bit to create it but in the end it is a real product. I look forward to feedback from my patients about it," said Dr. Stewart, Founder of Smile Savers Dentistry.

The official website was unveiled for usage February 2017 after months of laboring over the perfect layout and content presentation. The new website contains over 8,500 words of custom content, new office photos and videos, a brand new logo, color theme, and depicts the new overall brand excellently. The whole platform was hand-built and designed with Smile Savers Dentistry's brand in mind.

Smile Savers Dentistry provides a wide range of services, from root canals and basic cleanings, to dental implants. Their resume of services include cosmetic dentistry with veneers and tooth whitening, dental emergency services for last-minute emergencies, general dentistry for fillings and crowns, bridges, partial and full dentures, gum disease treatment using the newest technology: LANAP, as well as other dental services focusing on sleep apnea, tooth extractions, and TMJ.

The new website also contains an informational blog for keeping patients updated on industry news and procedures.
